## KANDIYOHI COUNTY AND CITY OF WILLMAR ECONOMIC DEVELOPMENT COMMISSION (EDC) JOINT OPERATIONS BOARD OF DIRECTORS (OB) MEETING

#### **MINUTES**

March 10, 2016 EDC Office, Willmar

Present: Art Benson, Rollie Boll, Donna Boonstra, Robert Carlson, Gary Gilman, Linda Kacher

and Kelly TerWisscha

Ex Officio: Bruce Peterson and Doug Reese

Staff: Aaron Backman, Executive Director

Guest: Steve Ahmann, Willmar City Council

Excused: Doug Reese and Connie Schmoll, Business Development Specialist

Media: Carolyn Lange, West Central Tribune

Secretarial: Nancy Birkeland, Legal & Administrative Assistants, Inc. (LAA)

President Robert Carlson called the meeting to order at approximately 11:03 a.m. The following was added to the Consent Agenda: 4d. Addition of Michelle Marotzke to the Broadband and Advanced Technology Committee and 4e. Addition of Art Benson to the Leisure Travel Committee and removal of Donna Boonstra from the Leisure Travel Committee and added to the Agenda under New Business was item 4, proposed 2016 budget changes.

IT WAS MOVED BY Linda Kacher, SECONDED BY Donna Boonstra, to approve the revised Consent Agenda and revised Agenda. MOTION CARRIED.

#### CONSENT AGENDA—

Approve: 1. Minutes of February 11, 2016 meeting

- 2. Financial reports as of February 29, 2016
- 3. Payment of bills
  - a. Invoice KCEDJan16 from REDstar for \$4,541.25 from the Marketing and Public Relations Committee's budget
- 4. Committee member changes:
  - a. Removal of Jamil Farhat from the Agriculture Investment Planning Subcommittee
  - b. Addition of Travis Prentice to the BRE/R Workforce Subcommittee
  - c. Addition of Kim Larson to the Agriculture and Renewable Energy Development Committee
  - d. Addition of Michelle Marotzke to the Broadband and Advanced Technology Committee
  - e. Addition of Art Benson to the Leisure Travel Committee and removal of Donna Boonstra from the Leisure Travel Committee

Accept: Committee Minutes

- 1. Agriculture and Renewable Energy Development 1/21 and 2/18/2016
  - a. Agriculture Investment Planning Subcommittee 2/4/2016
- 2. Broadband and Advanced Technology 2/1/2016
- 3. Business Retention and Expansion/Recruitment 1/20/2016
  - a. BRE Workforce Subcommittee 1/19 and 2/16/2016
- 4. Finance 2/9/2016

#### **REPORTS**

Willmar Industrial Park. Aaron Backman reported he participated in several meetings attended by Willmar city officials and met with Bruce Peterson on Willmar's Industrial Park. He also attended a stakeholder's meeting that included Larry Kruse, Doug Allen and Larry Kleindl discussing infrastructure and funding for infrastructure in the City of Willmar and Kandiyohi County.

#### [Steve Ahmann joined the meeting.]

Backman explained certification of shovel-ready sites—commercial and industrial sites that have had all title work and engineering completed prior to putting the site up for sale. A copy of the MN Shovel Ready Certified Development Site Application was provided to the board (see copy attached). There are 30 shovel-ready sites in Minnesota, which are shown on the state's website and are the main sites marketed by the state. Backman obtained shovel-ready certification for a majority of the Windom Industrial Park and his recommendation is to obtain shovel-ready certification for Willmar's Industrial Park 4<sup>th</sup> Addition. The application fee is \$3,250. If certification is sought, an ALTA survey would need to be done and because of the expense, it is less expensive to have it done on just one addition. An ALTA survey includes ordinances, a description of the lots, rights of ways and utility easements. Backman reviewed with the board the utility maps for the 3<sup>rd</sup> and 4<sup>th</sup> Additions (see copies attached) that he had done by Bolton & Menk, Inc., which will make it easier for businesses to determine the location of utilities when looking at lots. Willmar had this information on five separate maps rather than combined into one. Backman has already sent the maps to businesses and site selectors. The utility map is one piece necessary for shovel-ready certification. The lots showing "Sale Pending" on the 4th Addition map are the ones being purchased by Dooley's Petroleum. Jennie-O Turkey Store has a right of first refusal for the largest lot in the 3<sup>rd</sup> Addition, which should be noted on the map. Backman showed a chart he used in Windom listing every lot in the Industrial Park, the owner, assessments, taxes, etc. Backman is a proponent of partnering on projects and has had discussions with Wes Hompe of Willman Municipal Utilities in regard to the certification cost, who indicated he would speak with his commissioners. Backman has been speaking with Bruce Peterson on an environmental assessment, which would be included with the application and with Bolton & Menk, Inc. on the cost of an ALTA survey and the geotechnical work needed, such as soil borings. Board members felt strongly the city of Willmar should be responsible for a portion of the costs for obtaining shovel-ready certification of its Industrial Park.

Steve Ahmann commented the Industrial Park is an important addition to the city of Willmar and indicated there may be funds available to develop the park as it is a marketing investment in the city. Backman believes cost-sharing with the city of Willmar would be great, but he feels the EDC

needs to move forward with this. It is possible there could be reimbursement from the city, if the EDC advances the expenditures. Backman noted an active developer or site selector may want to verify the information and do their own soil borings. The State of Minnesota works with a Florida consultant, who reviews the application and does an onsite visit. Backman has spoken with the state project administrator and the Florida consultant will be in Minnesota in April; thus, Backman would like the application submitted before then. Backman estimates the cost of an ALTA survey and engineering costs, etc., will be between \$8,000-\$12,000.

IT WAS MOVED BY Linda Kacher, SECONDED by Gary Gilman, that the Kandiyohi County and City of Willmar Economic Development Commission allocate \$3,250 to the 2016 budget under Countywide Business Development for the purpose of submitting the MN Shovel Ready Certified Development Site Application for the Willmar Industrial Park 4<sup>th</sup> Addition, subject to the city of Willmar and Willmar Municipal Utilities bearing the costs of the supporting work needed to complete the certification process. MOTION CARRIED.

BNSF Railroad Wye project. Backman reported an open house was held February 25 for project review options (see attached). He believes option 2 was the preferred option and noted the diagram is not accurate from the standpoint of the rail spur that should be shown north of T.H. 40. Backman will participate in weekly conference calls, which includes representatives of Burlington Northern Santa Fe (BNSF) Railway, Minnesota Department of Transportation, City of Willmar and Kandiyohi County. These conference calls will be ongoing and there are also meetings on the project. The city of Willmar was notified that BNSF may now only have one track instead of two, which changes the entire project. Peterson is writing a response regarding this issue.

EDC/MinnWest Technology Campus. Backman reported he met with Joanna Schrupp, toured the campus with Steve Salzer and is impressed with what has been accomplished. A presentation by Hill Capital Corporation was given on Monday with more than 30 people attending from area banks and businesses. Hill Capital Corporation is looking to create a \$20 million fund for small businesses and entrepreneurs. Its board members are very respectable business people, who contributed \$200,000 to kickoff the fund.

#### **UNFINISHED BUSINESS—**

Historic 313 on Fourth Street. Backman reported he toured Historic 313 on Fourth Street, including Foxhole Brewery and also the Barn Theatre (see the Progress Update attached). Several contractors were at Historic 313 during his visit. The plumbers completed trenching for the main lines; electricians are working on the electrical and carpenters have started sheet rocking. Historic 313 has signed a lease with Spurs Restaurant, a seafood restaurant that will be located north of the brewery. They have been working with the county health inspector and are awaiting approval by the state. Historic 313 hopes to have another lease signed in the next 60 days. Backman also reported on a conversation he had with Anne Ketz of the Preservation Alliance of Minnesota, about the February loan payment paid to the EDC. Ketz is comfortable with the EDC retaining the February payment and full payments restarting in August 2016. Backman stated he is comfortable with the EDC's loan being repaid, if the third tenant is secured.

#### **NEW BUSINESS—**

Strategic planning session. Backman indicated the boards are interested in a planning session and staff is looking at dates in mid-April. He has contacted several people who may facilitate the session, including Bruce Miles, Sara Carlson, Scott Marquardt and others. Backman anticipates it be a six-hour session with lunch. A proposed date will be sent to the joint boards.

Site visits. Backman reported he and Connie Schmoll visited TimeWorn near Atwater, which manufactures unique wood tables and is in need of expanding its facility; toured several buildings in the Willmar Industrial Park, the former Molenaar's building and the Brinton building; he attended a transportation forum by state officials, including the Lt. Governor; has been meeting with each EDC board member and is now scheduling meetings with major employers. He met with senior management at Jennie-O Turkey Store and was given a tour and also met with Jeff Pattison of West Central Steel. The EDC is co-hosting a Job Fair March 22 at the Willmar Conference Center from 2:00 to 6:00 p.m., which staff will attend.

Sound dampening. The board was provided with a recommendation by TerWisscha Construction to install insulated ductwork with a few bends above the ceiling at each location of the return air grills at an estimated cost of \$1,250 (see attached). Kelly TerWisscha noted this will mitigate some of the sound, but not completely eliminate it. This is an internal correction between offices. This would be step one and if this does not help, step two would be to introduce white noise.

IT WAS MOVED BY Gary Gilman, SECONDED BY Linda Kacher, to approve Trace Plumbing and Heating installing five custom made sound transfer ducts at an estimated cost of \$1,250. MOTION CARRIED.

Proposed 2016 budget changes. Backman presented proposed changes to the 2016 budget (see attached). Overall, 23 line items would increase and 13 would decrease. The Marketing Committee's budget was reduced and those funds used for professional services for the ALTA survey and the shovel-ready certification. Backman noted he annualized the cost of the Assistant Director position over six months; accrued vacation and sick leave was added at the direction of the EDC's auditor; and travel was increased as he is not receiving an auto allowance. The proposed changes result in a deficit, which increases the reserve fund needed to balance the budget.

IT WAS MOVED BY Gary Gilman, SECONDED BY Kelly TerWisscha, to recommend to the Kandiyohi County and City of Willmar Economic Development Joint Powers Board to amend the 2016 budget as presented. MOTION CARRIED.

#### **COMMITTEE REPORTS**

Agriculture and Renewable Energy Development. Backman informed the board Connie Schmoll is attending the quarterly meeting of the Minnesota Marketing Partnership today and reported the Agriculture Investment Planning Subcommittee sent letters to 157 potential investors in regard to creating an ag investment fund. Rollie Boll reported the Ag Producers' Survey Planning Subcommittee decided to do focus groups to determine if another survey should be done.

Broadband and Advanced Technology. Linda Kacher reported four companies responded to the broadband feasibility study request for proposal. A task force evaluated the responses and will recommend the county commissioners select CNE (Communication Network Engineering, Inc.) of Fargo to complete the study. Committee members will present the recommendation to the county board on Tuesday. CNE has an office in New London. The study is to be completed by the end of August 2016 and CNE's fee is \$59,000, which is under the budgeted amount. Donna Boonstra reported she attended a legislative meeting hosted by the Blandin Foundation where she visited with people from the metro area and explained the challenges for rural businesses with limited service and benefits of broadband to Kandiyohi County. Rep. Dave Baker also attended and asked committee members to testify before a legislative hearing next week. Boonstra, Schmoll, Travis Bonnema of Jennie-O Turkey Store and Sam Romain of Haug Implement will attend the hearing and present the committee's legislative talking points. The committee also met with Senators Matt Schmit and Lyle Koenen and Rep. Baker and also spoke with CTC Partnership Development, a company that could help if Federated Telephone Cooperative (FTC) cannot do Kandiyohi County's project or work with FTC, if it needs assistance. Backman encouraged the committee to contact other companies in case FTC is unable to do the project and Kevin Beyer of FTC also encouraged contacting other providers. Kacher stated Scott Froemming of Kandiyohi Power Cooperative is investigating projects such as this.

Finance. Backman reported the Finance Committee did not meet in March. He spoke with Elsie Kashmark on her business, Peaceful Thymes Gifts & Garden Center, Inc. and was informed she added groceries to the store. Kashmark stated she can begin making full payments on her loan with the EDC in April 2016. Backman stated the committee approved extending interest-only payments through March 2016, which this board needs to ratify.

IT WAS MOVED BY Linda Kacher, SECONDED BY Kelly TerWisscha, to ratify Peaceful Thymes Gifts & Garden Center, Inc. making interest-only payments on its Revolving Loan Fund Ioan with the Kandiyohi County and City of Willmar Economic Development Commission through March 2016. MOTION CARRIED.

Leisure Travel. Backman reported Art Benson agreed to represent the EDC on the Willmar Lakes Area Convention & Visitors Bureau's Leisure Travel Committee. Benson attended the committee's meeting on Monday. Backman will also attend these meetings as his schedule allows.

Blandin grants. Backman reported the WiFi grant will not be completely spent by the partners and there will be approximately \$6,000 remaining, which Schmoll is recommending be used to assist the county in installing WiFi hotspots throughout the county.

IT WAS MOVED BY Gary Gilman, SECONDED BY Kelly TerWisscha, to use approximately \$6,000 that remain from the Blandin WiFi grant for installing WiFi hotspots throughout Kandiyohi County. MOTION CARRIED.

Backman indicated there is also \$3,000 remaining from the Hack<sub>2</sub>0 grant. There has been some discussion with the Blandin Foundation on extending the grant for another year.

Ahmann thanked the board members for their volunteer service on this board.

**NEXT MEETING**—The next board meeting is **11:00 a.m., Thursday, April 14, 2016**, in the EDC's board room, 222 20<sup>th</sup> Street SE, Willmar.

**ADJOURNMENT**—There being no further business, the meeting was adjourned at approximately 12:51 p.m.

Gary Gilman, Secretary

APPROVED: 4/14/2016:

Robert Carlson, President

# Willmar Rail Connector & Industrial Park Access (Wye) Project

### **Project Overview**

The Minnesota Department of Transportation and its partners (City of Willmar, Kandiyohi County, the Kandiyohi County and City of Willmar Economic Development Commission, and Burlington Northern Santa Fe Railway) will add a rail connection between two existing BNSF Railway lines and modify surrounding roadways to better move rail freight through the City of Willmar.

Currently delays to trains, motorized vehicles (including emergency responders), bicyclists and pedestrians occur when trains are moving from one BNSF rail line to the other via the downtown Willmar railyard.

To address the delays and mitigate their associated problems, MnDOT and its partners applied for and received federal TIGER funding.

### **Project Benefits**

There are several benefits associated with railway improvements. These include:

- Reducing trains traversing downtown Willmar and the accompanying train horn noise, idling trains and blocked roadway crossings
- · Reducing rail traffic congestion
- Providing an opportunity for rail service at the new industrial park (former airport site)
- Completing a key component of the City of Willmar's plans for growth and development in the southern and western ends of the community
- Supporting a better quality of life for the Willmar region as a whole

### **Project Components**

- New railway track linking the two railroads on the city's western limits
- Bridges on state roadways going over the railroad tracks (reduces at-grade crossings)
- Roadway realignments on the state, county and local roadway network
- · Rail spur into the industrial park

### **Project Costs**

Project costs are currently estimated at approximately \$47 million.

A majority of the funding will be coming from a TIGER grant, MnDOT, BNSF Railway and other state funding sources. Kandiyohi County, the City of Willmar, and the Kandiyohi County and City of Willmar Economic Development Commission are also contributing financially and through property donation.

### More Information

For more information, please visit MnDOT's Website at: www.dot.state.mn.us/d8/projects/wilmarwye or contact Paul Rasmussen – MnDOT Project Manager at 320-214-6320 or p.rasmussen@state.mn.us

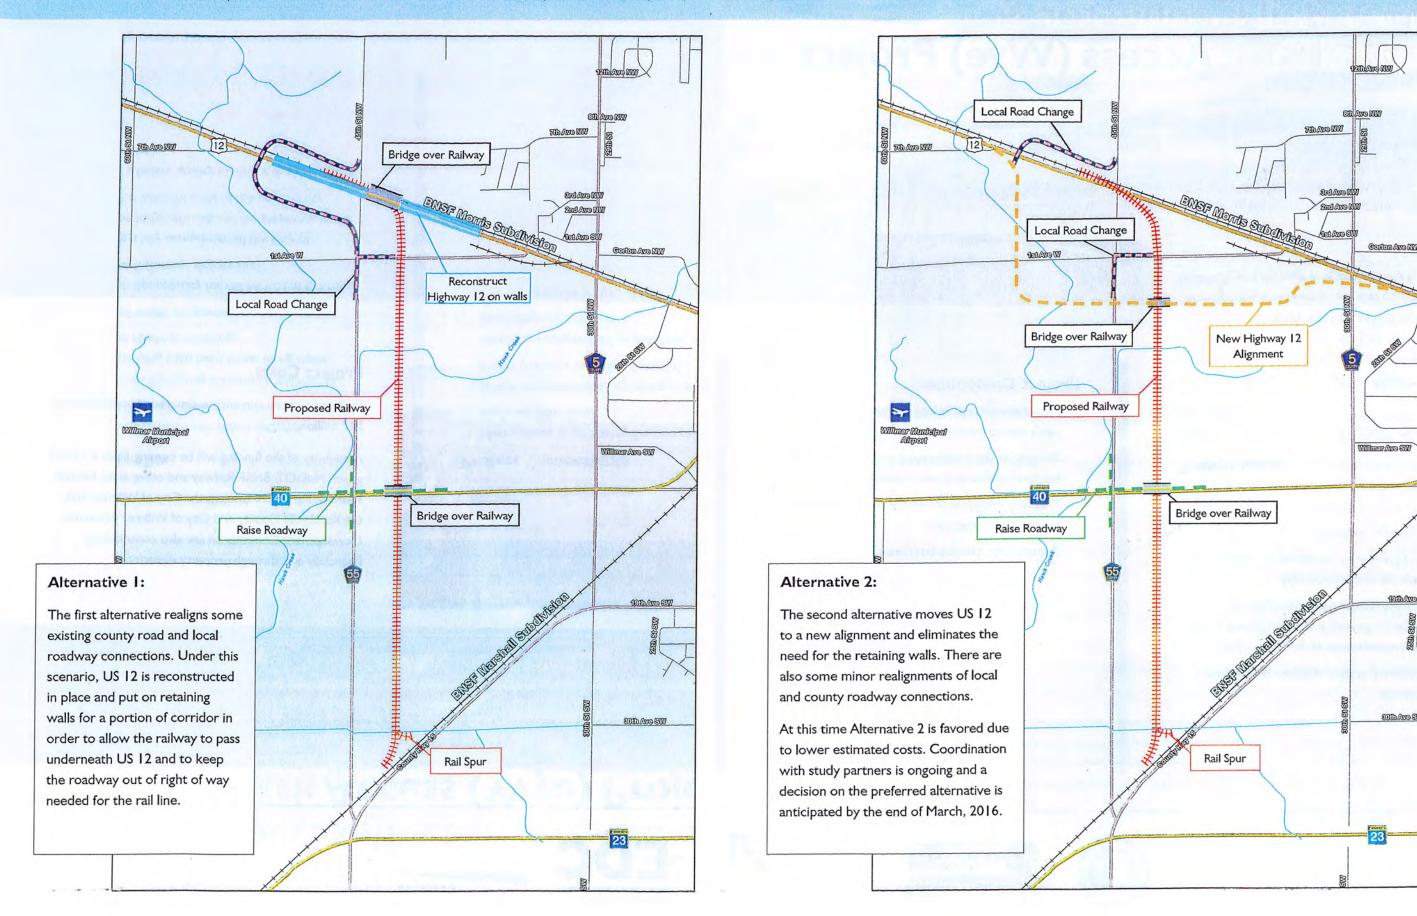

#### **Alternatives Under Consideration**

There are two primary alternatives under consideration. The railway alignment is the same for both alternatives, as are improvements on TH 40. The potential Kandiyohi County grade separation at the southern limits of the project area is optional under both alternatives. Please view the large layout for the Kandiyohi option. Work depicted herein reflects current concept. Some elements subject to change based on final design considerations.

## Historic 313 on 4<sup>th</sup> Street LLC *Progress Update*

Since we last met here is how the project has progressed:

- Plumber has started and is currently trenching in the piping for rest of building. Plumbing is scheduled to be stubbed to lease spaces Thursday the 10<sup>th</sup>.
- Pouring of concrete and backfilling begins Monday the 14th
- Electrician has started new electrical service for rest of the building. This includes new panel, lighting and outlets to new businesses.
- Contractor has completed interior south wall. Started sheet rocking west wall around windows.
- Meeting with local retailers for retail outlet store on Friday March 11<sup>th</sup> to discuss start-up costs, working capital and equipment requirements.
- Spurs restaurant is working on plumbing plans to submit to State of Minnesota.
- Goal and schedule still remains 2<sup>nd</sup> tenant on May 1<sup>st</sup>.

#### Thank you

Building Team Members (Bev Dougherty, Andy Engan, Anne Katz, Jeff Madsen)

Subject: Kandiyohi County & City of Willmar - Economic Development Commission - Noise Reduction Options

Connie,

As requested the below information is follow up from our discussion this morning.

It is my recommendation that you consider adding some insulated ductwork with a few bends in it above ceiling at each location of the return air grills. See below drawing for example:

My hopes are by adding this it at each location it will help noise from directly floating into the neighboring spaced above the ceilings. As you can see with the bends in the ductwork it will force the noise to bounce off each insulated wall of the added ductwork prior to entering the other spaces.

At this time I have requested proposals from Trace Plumbing and Heating along with Magnuson Sheet Metal for installation of a similar system as noted above at 5 total locations in the space (1 @ conference room, 1 @ front office, 1 @ your office & 2 @ back office). Once I receive the proposals I will analyze the scopes of work and finalize a proposal to you from TWC.

Please note there are many additional things that can be done to help with sound control in an office environment. Below is a link to a great website that may spark some ideas or interest. <a href="https://acousticalsolutions.com/">https://acousticalsolutions.com/</a>

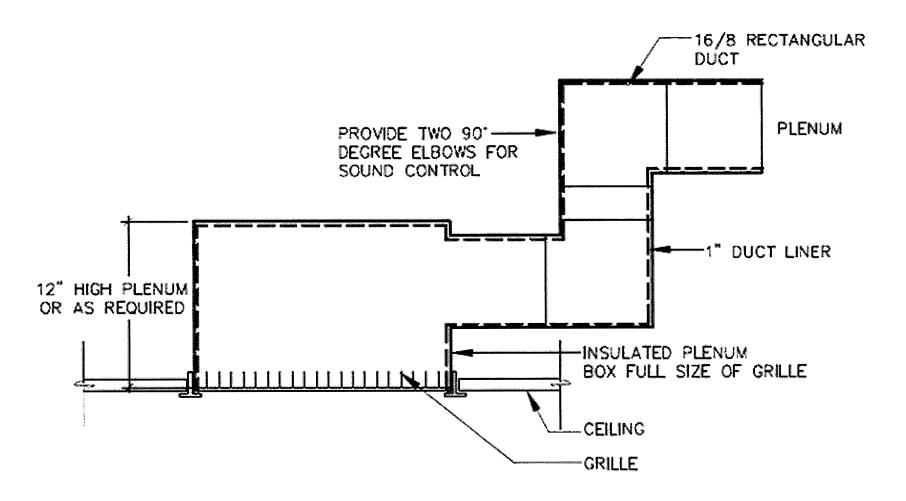

Please let me know if you have any questions or if I can be of further assistance.

Subject: RE: Kandiyohi County & City of Willmar - Economic Development Commission - Noise Reduction Options

Connie,

Sorry for the delayed response. I left messages with Magnuson Sheet Metal but never heard back from them for some reason. I did receive a price from Trace Plumbing and Heating for 5 custom made sound transfer ducts at \$250.00 each totaling \$1,250.00. I feel this is a fair price and recommend him for the work. Below is his contact information.

Trace Plumbing & Heating
Tracy Swart – 320-796-6445
traceph@gmail.com

If you would like any further assistance from me let me know. Have a wonderful night.
